297/18 Cornwall Council – Safer Cornwall Partnership Plan

It was **resolved** to submit the response as drafted.

Safer Cornwall Partnership Plan 2019-22 Consultation

Safer Cornwall is the community safety partnership for Cornwall and has a responsibility to tackle crime, anti-social behaviour and other issues that impact on community safety. The Partnership brings together a wide range of public, community, voluntary and private sector organisations to do this, including the police, council, fire and rescue service, health and probation services.

This is Safer Cornwall's new partnership plan, which is planned to come into effect on 1 April 2019.

The plan sets out how we will tackle these issues over the next three years, focused on the priorities that we need to address to ensure that Cornwall is a safe, healthy and resilient place for the benefit of everyone who lives, works or visits here.

Your views are important to us and for the next three months, we are inviting you to read the plan and send us your thoughts about what you like about it, what you don't like and if you'd like to see any changes. We will then use all of this feedback to shape the final plan, which will be published in March 2019.

I am providing my views as:

Were you aware of Safer Cornwall or any of the work that we do before today?

Yes

2.

Having read through the Plan, please let us know how much you agree with the following three statements (tick the one that best reflects your view).

I understand what Safer Cornwall is and what it does - Agree

I understand what the priorities are for Safer Cornwall and why - Agree

Safer Cornwall is tackling the crime and anti-social behaviour issues that matter in my local area - Neutral

What could we do to improve the way in which information is presented in the Plan?

Information for box:

- Include a one-page summary document/FAQ at the beginning outlining what Safer Cornwall is, what agencies are involved, what the priorities are and how these will be achieved
- Pages are too piecemeal and are not easy to follow – consider simplifying the format
- The document is very wordy and includes a lot of jargon – consider simplifying and reducing word count

3.

Thinking about what we plan to do to tackle crime and disorder and improve community safety over the next three years, please let us know...

What activity in the Plan will be most helpful in tackling crime and anti-social behaviour in Cornwall over the next three years?

Information for box:

- Lostwithiel Town Council welcomes the proposal to work proactively with Safer Cornwall to find local solutions and would also welcome the opportunity to contribute to the creation of an action plan to tackle local issues of crime and antisocial behaviour

What activity in the Plan will be least helpful?

Information for box:

- Around a third of the proposed actions are simply about the delivery of staff knowledge and skills training. Whilst recognising the importance of these, they should not be considered sufficient activity goals in themselves but should lead on to the implementation of specific related activity or practice.

If you could add one thing to the Plan for Safer Cornwall to do over the next three years, what would that be?

Information for box

- Lostwithiel Town Council would like to see a greater focus on traffic management offences and a keener focus on actions that tackle anti-social behaviour, particularly drug related offences.

Please use the box below to provide any further information that you think would be useful to us or that we need to know
